**Q: HOW CAN YOU PREPARE FOR A  
THREAT THAT DOESN'T YET EXIST?**

# A: iPROTECT INTERRUPTION PLANNING PROGRAM

## CAPSTONE iPROTECT

The CapStone iPROTECT Interruption Planning Program will prepare you now and for the future. With this comprehensive program, you can check “business continuity” off your list of concerns. Every area of your Business Interruption Plan (BIP) will be set up and maintained by leading experts in business continuity planning. It will be a major relief—financially and otherwise—to have a team of specialists dedicated to building, updating and testing an effective plan for your company while you focus on growing your business.

### Benefits of the iPROTECT program:

- **Peace of mind:** An updated plan created, managed and tested by industry experts
- **Affordability:** Low initial cost and flexible payment plans
- **Justifiable:** Significantly reduce internal resources and costs
- **Effectiveness:** Company-wide strategy that is simple to initiate
- **Ongoing testing and training:** Continuous maintenance plan

Contact CapStone Technologies today to talk to us about the iPROTECT program. Start the process now of freeing yourself from the worries and strains of business continuity planning, and get your company fully prepared for an uncertain future.
