**Q: DO YOU FULLY TRUST YOUR
BUSINESS CONTINUITY PLAN?**

A: YOU WILL WITH iPROTECT INTERRUPTION PLANNING PROGRAM.

CAPSTONE iPROTECT

While most business interruption plans prepare you for a disaster—the most unlikely scenario—iPROTECT interruption planning program by CapStone Technologies addresses real life situations with its nine practical planning scenarios:

- #1: Work area accessible; hardware, server, network and applications NOT available
- #2: Work area NOT accessible; hardware, server, network and applications NOT available
- #3: Work area NOT accessible; hardware, server, network and applications available
- #4: Communications (voice and data) into facility interrupted
- #5: Commercial power to facility interrupted
- #6: Water to normal work area interrupted
- #7: Personnel unable to work (30-40% employees do not report to work)
- #8: Loss of key suppliers
- #9: Normal work area destroyed

CapStone Technologies is a leading expert in creating practical business interruption plans. Contact CapStone today to free yourself from the worries of dealing with real life interruptions and become fully prepared for an uncertain future.
